Problem-solving

## PROFILE

I am a motivated visual artist with a sharp eye for spatial aesthetic looking for gallery positions and media houses to apply my curatorial and design skills. Proficient in Procreate, Adobe Photoshop, Fresco, Lightroom and Premiere with a passion for out-of-the-box creative thinking through surreal imagery and vivid dream scapes.

I am skilled in oil painting, digital illustration, photography and video creative direction and editing with numerous courses in Digital Illustration, Portraiture and Photography to further enhance my multi-media expertise. Having created numerous art book publications, I am eager to utilise my creative writing and visual art skills in a professional environment.

As a fresh graduate from Nanyang Academy of Fine Arts, I have honed the soft skills of working well in groups, driving collaborative efforts, setting up exhibition spaces and researching South East Asian art history and movements. Experienced in myth-making and world building in the creative arts using a myriad digital and traditional mediums including print making, installation, performance art and short film with a strong background in the elements and principles of art and design and a Bachelor's degree in Fine Arts.

Having graduated prior with distinction from Lasalle College of the Arts, Singapore with a Diploma in fine arts, I have a proven track record of meeting boldness with imagination and am looking to grow my skillets in Singapore's thriving art world.
